Response to Arguments

Applicant's arguments, see page 4 of the amendment/response, filed 1 February 2005, with respect to the 112 1st. paragraph rejection of claims 2 and 5-8 and the objection to claims 1-9, have been fully considered and are persuasive. The claim objections and the 112 1st. paragraph rejection of claims 1-9 have been withdrawn.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 1-9 is the inclusion of the limitation of printhead modules that includes a support beam with alternating segments having a coefficient of thermal expansion substantially equal to a known coefficient of thermal expansion of printhead modules for mounting on the beam. It is this limitation found in the claims, as it is claimed in the combination of, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
